# Lubri System Oil SA-01

Lubri System Oil SA-01

LUBRI SYSTEM OIL SA-01

It is the ideal solution for easy applications that foreseen 1 or 2 lubrication points.
The coding is carried out in an extremely simple and fast way by means of the timer stayed on the front wall of the case.
Ideal for the lubrication of mechanical components in movement of any kind
Usable with different types of lubrication

TECHNICAL DATA

|	
Power:	*24 VDC*
Consumption:	*2 A (max)*
Operating Temperature:	*Da 0°C a 50°C*
Length Max. Pipes:	*5 mt*
Diameter Pipe:	*4x2 mm*
Time ON (provision)	*0,5 sec. - 10 sec.*
Time OFF (stop)	*30 sec. - 45 min.*
Capacity tank	*1000 cc.*
Viscosity lube:	*2 < ISO VG < 460*
Dry Weight	*1750 g.*
Dimensions	*245 x 150 x 116 mm*
Interlocking fixing holes X	*100 mm < X < 130 mm*

1 Timer for setting the cycle of lubrication
2 Power supply cable (with free end)
3 Window for visual inspection of the lubricant level
4 Plug with second output fitting kit
5 Fitting for insertion of the outlet pipe
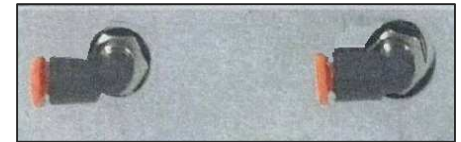

ACCESSOIRES

. *Adjustable dispensing unit*

A *B*

. *Examples of nozzles for applying the lubricant*

EXIT CONFIGURATIONS

. *1 Exit* . *2 Exits*
